

Services or Technology: **Consulting Engineering and Project Management**

Company Name: **Canadian Projects Limited**

Key Company Contacts: **Paul Kemp, P.Eng., Zach Vorvis, P.Eng.**

We are one of Canada's most experienced and innovative renewable energy engineering consultants. Canadian Projects Limited was founded in May 1999, and is headquartered in Calgary, Alberta with offices in Barrie Ontario, as well as, several Project offices across Canada. We are a private company focused on project management and engineering of commercial scale renewable energy developments throughout Canada. Our primary focus is run-of-river hydro, wind and solar power projects.

With a strong client base, our innovative design and project execution team has allowed us to become one of Canada's leading renewable energy project delivery companies, with over \$3.0 Billion of projects built to date.

At Canadian Projects Limited, our vision is long term, we program manage project portfolios with our clients to create an essential balance between energy production, environmental stewardship and economic viability. With the best people and the right opportunities, we are in the enviable position to change the nation's power supply to successfully meet future sustainability and profitability objectives.
