

McGhee-Krizsan Engineering Limited (MKE), Consulting Engineers, is a 100% Canadian owned company based in Burlington, Ontario. MKE was founded in 2006 by our president Karen McGhee, P.Eng.

MKE specializes in Project Management and Independent Engineering for renewable energy projects. Our reputation was built on providing engineering services for the waterpower industry throughout Ontario and British Columbia.

Services provided include:

- **Project Management**
- **Independent Engineering Reviews**
- **Permitting**
- **Pre-Feasibility & Feasibility Studies**
- **Public and Aboriginal Consultation**
- **Environmental Assessment Coordination**
- **Design**
- **Construction Administration**

MKE provides full **Project Management** services for those developers looking to increase waterpower expertise without investing in long-term in-house staffing. MKE's role may include manager and coordinator of all **engineering** and **environmental consultants** and **contractors**, prime contact for **government agencies**, and spokesperson for public and aboriginal consultation including **media relations**. MKE will manage all key external team members with respect to **schedule and budget** and provide professional reporting to the Developer's Board of Directors.

MKE has extensive expertise in **Independent Engineering** due diligence reviews for equity investment, financing and acquisitions. We provide **energy & revenue forecasting**, **contract reviews**, **cost estimates**, **contingency reviews** and **funding recommendations** for developers, operators, **financial institutions**, government institutions (such as **Infrastructure Ontario**) and potential **aboriginal partners**.
