**Project Information**

<b>Project Name</b> Wasdell Falls Hydroelectric Development Project	
<b>Nameplate Capacity of Facility (in megawatts):</b> 1.9 MW	
<b>Category of Class EA Completed (check one)</b>	<input checked="" type="checkbox"/> Projects Associated with Existing Infrastructure <input type="checkbox"/> New Projects on Managed Waterway <input type="checkbox"/> New Projects on Unmanaged Waterway
<b>Brief Project Description:</b> Project will consist of the development of a 1.9 MW hydroelectric facility beside the existing Wasdell Falls dam. The site has been utilized for hydroelectric development in the past.	
<b>Summary of Conclusions of Environmental Report:</b> The EA identified no significant net effects associated with the proposed development. Water levels will be maintained in accordance with the existing management regime. Mitigation and avoidance measures, an adaptive management strategy and monitoring have been adopted to ensure facility construction and operations do not negatively impact the natural environment or human use.	
<b>Summary of Aboriginal Engagement and Outcome:</b> First Nations engagement process was initiated by the MNR and transferred to the proponent. The Chippewas of Rama First Nation have been engaged throughout the process and have not identified any issues with the project. The ER and supporting documents have also been provided to the Rama First Nation. During the 30 day review period the proponent was contacted by the Metis Nation of Ontario. While no objection to the project was raised, communication is ongoing.	
<b>Summary of Public and Agency Consultation and Outcome:</b> Federal, Provincial and Municipal agencies have been consulted throughout the EA process and all issues raised have been documented and addressed. The public and local riparian landowners have been engaged through multiple meetings and an open dialogue. One letter outlining landowner concerns was received during the 30 day review period. The letter, the proponents response and the acceptance of the landowners is attached.	

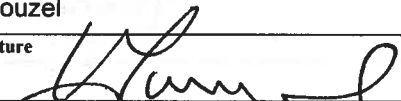

Availability of Documentation (proponents are required to retain, either on site or in another location where they will be readily available, any Environmental Report, Addendum, and related notices and Statements of Completion prepared under the Class EA Process, as well as documentation of any commitments made by the proponent to address concerns after one of the above-noted reports was prepared)  
 Complete A or B and the remainder of section.

<b>A. Site Address – Street Information</b> (applies to an address that has civic numbering and street information – includes street number, name, type, and direction)		<input checked="" type="checkbox"/> Same as Site Address		<b>Unit Identifier</b> (identifies type of unit, such as suite & number)	
<b>B. Survey Address</b> (used for rural location specified for a subdivide township, and unsubdivided township or unsurveyed territory) NOTE: Do not complete "B" is you completed "A"					
<b>Lot and Conc.:</b> used to indicate location within a subdivided township and consists of a lot number and a concession number	<b>Lot</b>	<b>Conc</b>	<b>Part and Reference:</b> used to indicate location within an unsubdivided township or unsurveyed territory, and consists of a part and a reference plan number indicating the location within that plan.
